

ACTIVINSPIRE TIPS & TRICKS

Default tool:

The default tool when ActivInspire software is opened is the pen tool. This can be changed to other frequently used tools. To change the default tool:

1. Click **View**
2. Click **Customize**
3. Click the **Settings** tab
4. Click **Tools**
5. Choose the desired **Default Tool** (options include: select, pen, eraser, highlighter, fill) from the dropdown menu.
6. Click **Done**
