

ACTIVINSPIRE TIPS & TRICKS

Connectors

The connector tool is used to draw connections between objects on the flipchart page. The connecting line changes automatically when the connected objects are moved.

Using the Connector Tool

1. Click on the **Connector Tool** on the Toolstrip.
2. Choose the **Connector Style** from the menu.
3. Choose the **Line color** from the Color Palette on the main toolbox.
4. Click and draw the connector from one object to another on the page.
