

ACTIVINSPIRE TIPS & TRICKS

Dual User

Dual user gives two users the capability of working on the board simultaneously, either on two separate problems, or collaboratively in the same place. Once Dual User is activated, two separate toolstrips are visible. The student pen and cursor are orange and the teacher pen and cursor are black. Dual user will remain active until it is deactivated.

To use Dual User

1. Click on **Tools, Dual User**.
2. Two toolstrips appear on board. The orange toolstrip is for the student and can be controlled with the student pen.
3. Students or a student and the teacher can work on the board at the same time.
4. To turn off dual user, go to **Tools, Dual User**.

Adding Dual User to the Toolstrip

1. Click on **File, Settings**.
2. Click on the **Commands** tab.
3. Scroll down in the **All Commands** window on the left until you see **Dual User**.
4. Click once on it.
5. Click the **Add** button on the bottom of the window.
6. Click **Done**.
7. The button will be on your main toolstrip.
