

# ACTIVINSPIRE TIPS & TRICKS

## Using Page Turn Effects:

Page turn effects allow you to choose from a range of animations to give the finishing touch to your flipchart. Effects run when you navigate from one page to another. The default setting in ActivInspire is off.

1. Click **View**
2. Click **Page Turn Effects**
3. Click on the effect you would like to use in your flipchart
4. Click **Done**

\*This page turn effect will be applied to your entire flipchart

You can change the default effect and animation speed in Settings.

1. Click **View**
  2. Click **Customize**
  3. Click the **Settings** tab
  4. Click **Flipchart**
  5. Choose the desired page **Default Page Turn Effect** and **Page Turn Duration**
  6. Click **Done**
- \*Leave Page turn renderer set to Software
